

Elekta receives initial investment grade rating from S&P Global Ratings

STOCKHOLM – Elekta (EKTA-B.ST) announced today that it has received an investment grade (IG) rating from S&P Global Ratings (S&P). S&P has assigned a BBB- rating to Elekta and to the Group’s senior unsecured notes, with stable outlook. S&P notes that Elekta’s rating reflects the global leading position, ability to introduce new innovative treatment solutions and the key credit strengths being low leverage and stable cash generation.

“We are very pleased to have secured an investment grade rating from S&P, which reflects our strong financial position,” stated Johan Adebäck, Elekta’s CFO. “This rating gives us even better potential to seek additional market financing at attractive terms, and it will support our strategy ACCESS 2025 in driving sustainable profitable growth and close the global access gap to radiotherapy, elevating cancer care and increasing patients’ participation in their own care.”
