The proposals in this point have been put together by the Company's Nomination Committee which as per June 30, 2011, represented shareholders holding 38.6 percent of the votes in the Company.

Point 16 – Resolution regarding guidelines for remuneration to executive management

The Board of Directors proposes that the meeting approves the following guidelines for remuneration and other terms of employment for the Executive Management of the Group. The guidelines will be valid for employment agreements entered into after the meeting and for any changes made to existing employment agreements thereafter. It is proposed that the Board is given the possibility to deviate from the below stated guidelines in individual cases where specific reasons exist.

Guidelines

It is of fundamental importance to the Group and its shareholders that the guidelines for remuneration and other terms of employment for the executives of the Group attract, motivate and retain competent employees and managers, both in the short and long term. To achieve this goal, it is important to ensure fairness and internal equity, while maintaining market competitiveness in terms of the structure, scope and level of executive compensation within Elekta. Employment conditions for executive management should comprise a balanced mix of fixed salary, a variable salary component, annual incentive or "bonus", long-term incentives, pension and other benefits, as well as notice and severance payments, where applicable.

Total Target Cash Compensation

Total Target Cash Compensation, i.e. fixed plus variable salary components, should be competitive in the geographic market where the executive is resident. The level of total target compensation should be reviewed annually to ensure that it is in line with or slightly above the market median, preferably within the lower end of the third quartile (i.e. between 51 percent and 60 percent against the market median), for similar positions in that market. Market medians are established annually with the assistance of external compensation benchmarking.

Since compensation should be performance-driven, the target annual variable salary component should account for a relatively high portion of the total target compensation.

Compensation components

The Group compensation system comprises various forms of compensation. This ensures well-balanced remuneration, thereby strengthening and underpinning short and long-term objective setting and achievement.

Fixed salary

Executive Management's fixed salary shall be individual and based on the content and responsibility of the position, the individual's competence and experience in relation to the role held, as well as the geography in which the position is based.

Variable salary

In addition to a fixed salary, Executive Management also has a variable salary component. The variable component is structured as a portion of the total cash remuneration package and is primarily related to the achievement of common Group financial performance goals. The Key Performance Indicators (KPIs) for variable salary components shall primarily be related to the outcome of specific financial objectives within the Group compensation and benefit system. The size of the variable salary component depends on the position held and may amount to between 30 percent and 60 percent of the fixed salary for on-target target performance. Performance against fixed targets and payment for results achieved are measured quarterly. According to the Group's policy, all payment against variable salary components is capped.

The goals for the variable salary component are established annually by the Board so as to sustain the business strategy and objectives. Other KPIs may be used to drive focus on non-financial objectives of particular interest.

Annual incentive

For performance related to financial goals within the variable salary plan exceeding 100 percent of the target, there is the opportunity for additional compensation called an annual "incentive" or bonus. The annual incentive entails a potential to earn a maximum of an additional 60 percent of the target variable salary component. Accordingly, the maximum payout level for the sum of the variable salary component and the annual incentive is capped at a 160 percent of the original target for variable compensation. The plan also contains a minimum performance level or threshold under which no variable salary or annual incentive will be paid out at all.

Equity-based long-term incentive programs

The Board also uses long-term incentives to ensure alignment between shareholder interests and Executive Management, senior managers and other key colleagues. On an annual basis, the Board of Directors evaluates whether an equity-based long-term incentive program should be proposed to the AGM. The main content of the Board's proposal to this year's Annual General Meeting can be found under point 18 in the Board's proposal for a resolution on an incentive program.

In order to strengthen long-term thinking in decision-making and ensure achievement of long-term objectives, while also covering situations where equity-based solutions may be inappropriate or precluded by law, the Board may also selectively decide on other types of non-equity-based long-term incentive programs. Monetary long-term incentives should only be used as remuneration in special circumstances and be in line with practice in each market. They must also require continued employment in the Group.

Retention measures

In order to ensure long-term engagement and retention of key staff in connection with the acquisition of new business, the divestment of operations or other transitional activities, an additional annual incentive with a deferred payment of 12-24 months may or may not be applied. This deferred incentive requires continued employment until an agreed future date for any payment to be made and is applied only in special circumstances, i.e. is not part of any ordinary executive remuneration scheme. The deferred incentive should never exceed 50 percent of the normal annual variable salary component and shall in other aspects comply with the Group bonus plan.

Pensions

When establishing new pension agreements, senior executives who are entitled to pension benefits should only be enrolled in defined-contribution schemes. The standard retirement age for Swedish citizens is 65 years while other executives follow the rules of their respective countries of residence. The main guideline is that the size of pension contributions be based only on the fixed salary. Certain individual adjustments may occur based on local market practice.

Other benefits

Benefits such as company cars and health, medical and sickness-related insurance schemes, should be of a more limited value compared with other items of the compensation package and in line with the market practice for the respective geographic market.

Notice periods and severance agreements

Periods of notice in Elekta follow local labor legislative requirements in the geographies in which they are based. Senior executives generally have notice periods of between 6 and 12 months, except for the President and CEO, whose period of notice is 24 months if notice is given by the company and 8 months, if notice is given by the President and CEO. In the event of a material change of control, the President and CEO shall have the right to terminate the employment with 6 months notice within 120 days, and shall be entitled to severance payment equal to 18 months employment including all employment benefits except for annual incentives and company car.

If employment termination is initiated by the Company, the previous President is entitled to severance pay of three years' salary, including pension benefits, other remuneration during a 3-4 year period and four times his annual bonus, calculated as the average bonus paid during the most recent three-year period. In addition, the previous President is entitled to severance pay in the event that he resigns as the result of certain more comprehensive ownership changes. This severance agreement is irrevocable.

Severance agreements entitling executives to lump sum payments will in principle not be signed.

Point 17 a) – Resolution regarding authorization for the Board to decide upon acquisition of own shares

The Board proposes that the Meeting authorize the Board during the period until the next Annual General Meeting to decide, on one or more occasions, on the acquisition of a maximum number of own shares so that, after the purchase, the Company holds not more than 10 percent of the total number of shares in the Company. Such shares shall be purchased on NASDAQ OMX Stockholm at a price that is within the registered price interval (spread) at any given time, meaning the interval between the highest bid price and the lowest ask price, and in other respects in accordance with the rules of NASDAQ OMX

Stockholm at any given time. The purpose of the repurchase of own shares is firstly to align the Company's capital structure to the Company's capital requirements and, where appropriate, to enable share transfers in conjunction with the financing of company acquisitions and other types of strategic investments and acquisitions. An additional objective is to facilitate hedging of costs and delivery in relation to the Performance Share Program 2011 proposed under point 18.

The resolution of the Meeting in accordance with the Board's proposal pursuant to this point 17 a) must be supported by shareholders representing at least two-thirds of the votes cast and the shares represented at the Meeting.

Point 17 b) – Resolution regarding authorization for the Board to decide upon the transfer of own shares

The Board proposes that the Meeting authorize the Board during the period until the next Annual General Meeting to decide, on one or more occasions, on the transfer of shares in the Company. The shares may only be transferred in conjunction with the financing of company acquisitions and other types of strategic investments and acquisitions, and the transfers may not exceed the maximum number of treasury shares held by the Company at any given time. Transfer of own shares shall be made either on NASDAQ OMX Stockholm or in another manner. In conjunction with the acquisition of companies or operations, transfer of own shares may be made with deviation from the shareholders' preferential rights and at a price that is within the so-called spread (see above) at the time of the decision regarding the transfer and in accordance with the rules of NASDAQ OMX Stockholm at any given time. Payment for shares transferred in this manner may be made in cash or through a non-cash issue or offsetting of claims against the Company, or on other specific terms. The reason for the Board's authorization to waive the shareholders' preferential rights is, where appropriate, to be able to transfer shares in conjunction with the financing of any company acquisitions and other types of strategic investments and acquisitions in a cost-efficient manner.

The resolution of the Meeting in accordance with the Board's proposal pursuant to this point 17 b) must be supported by shareholders representing at least two-thirds of the votes cast and the shares represented at the Meeting.

Point 17 c) – Resolution regarding the transfer of own shares with reference to the Performance Share Program 2011

The Board proposes that the Meeting resolves on transfer of own shares in the Company and authorization for the Board as a result of Performance Share Program 2011 on the following terms.

- i) No more than 266,000 shares of series B can be transferred with deviation from the shareholders' preferential rights.
- ii) Right to acquire shares shall be granted to such individuals within the Elekta group covered by the terms and conditions for the Performance Share Program 2011. Further, subsidiaries within the Elekta Group shall have the right to acquire shares free of consideration and such subsidiaries shall be obligated to immediately transfer free of consideration shares to their employees covered by the terms of the Performance Share Program 2011.

- iii) The employee shall have the right to receive shares during the period when the employee is entitled to receive shares in accordance with the terms of the Performance Share Program 2011.
- iv) Employees covered by the terms of the Performance Share Program 2011 shall subject to certain conditions, receive shares of series B free of consideration.
- v) The Board is authorized, during the period until the next Annual General Meeting to decide, on one or more occasions, to transfer no more than 36,700 shares on NASDAQ OMX Stockholm, in order to cover certain payment, mainly social security payment. The transfer may be executed by waiving the shareholders' preferential rights and at a price within the so-called spread (see above) at the time of the decision regarding the transfer and in accordance with the rules of NASDAQ OMX Stockholm at any given time.

The reasons for deviation from the shareholders' preferential rights and the base for determination of the transfer price are as follows.

The transfer of own shares forms part of the implementation of the Performance Share Program 2011. The Board considers it an advantage for the company and its shareholders that the employees are shareholders in the company.

The base for determination of the transfer prices is evident from the Board's proposal under the relevant heading above.

In order for the Meeting's resolution in accordance with the proposal under this point 17 c) to be valid, shareholders representing at least nine tenths of the votes cast as well as the shares represented at the meeting must be in favor of the proposal.

Point 17 d) – Resolution regarding authorization for the Board to decide upon the transfer of own shares with reference to the Performance Share Program 2009 and 2010

The Board proposes that the Meeting authorize the Board during the period until the next Annual General Meeting to decide, on one or more occasions, on the transfer of not more than 47,250 shares on NASDAQ OMX Stockholm, with reference to the Performance Share Program 2009 and 2010, to cover certain expenditures, mainly social security contributions. Transfers may be executed at a price that is within the so-called spread (see above) at the time of the decision regarding the transfer and in accordance with the rules of NASDAQ OMX Stockholm at any given time.

The resolution of the Meeting in accordance with the Board's proposal pursuant to this point 17 d) must be supported by shareholders representing at least two-thirds of the votes cast and the shares represented at the Meeting.

Point 18 – Resolution regarding Performance Share Program 2011

Calculations of dilution are based on the number of shares issued at the time this notice was drafted.

Background

At the 2009 Annual General Meeting the Elekta Group introduced a performance-based share program (Performance Share Program 2009) for key employees. The 2010 Annual General Meeting resolved on Performance Share Program 2010 with in essence the same terms and conditions as Performance Share Program 2009.

The Board proposes that the Annual General Meeting pass a resolution regarding a Performance Share Program for 2011. The terms of the proposed Performance Share Program 2011 are in all material respects the same as the terms of the Performance Share Program 2009 and 2010.

Performance Share Program 2011

It is proposed that the Performance Share Program 2011 cover approximately 120 key employees in the Elekta Group with an opportunity to be allotted class B shares in Elekta free of charge under the following principal terms and guidelines.

The participants in the Performance Share Program 2011 shall be divided into five groups: the President and CEO, other members of the Group management and three additional groups for other senior executives and key employees. For each group, the Board will determine a maximum value for the Performance Share Program 2011 per individual denominated in SEK. The maximum value for the President and CEO is SEK 2,400,000, for other members of Group management SEK 900,000 and for other senior executives and key employees not less than SEK 225,000 and not more than SEK 520,000. The total sum of the maximum values for all participants shall not exceed SEK 57,325,000, excluding social security contributions.

Each participant's value shall be converted into a number of shares, based on the average closing share price of the Elekta class B share on NASDAQ OMX Stockholm during a period of ten trading days prior to the date on which the participants are offered the opportunity to participate in the program.

The number of shares that can be allotted depends on the degree of fulfillment of a financial target based on the average earnings per share (EPS) growth during the period from the 2011/2012 financial year to the end of the 2013/2014 financial year. The financial target for being allotted shares under the Performance Share Program 2011 include a threshold that must be exceeded in order for any allotment to occur at all, as well as a ceiling in excess of which no additional allotment will occur. Allotments between the threshold and ceiling are linear. The value that the employee could receive upon the allotment of shares in the program is maximized at 400 percent of the share price at the time of the offer to participate in the program. The performance target shall be adjusted upon the occurrence of events affecting the Elekta Group's operations or the number of outstanding shares in the Company or otherwise affecting the performance target and deemed relevant by the Board.

The allotment of shares normally requires that the persons covered by the program are employed in the Elekta Group during the entire performance period. If all conditions included in the Performance Share Program 2011 are met, the shares shall be allotted free of charge following the conclusion of the three-year performance period and upon approval of the results by the Board. Before the final number of shares to be allotted is determined, the Board shall examine whether the allotment is reasonable considering the Company's financial results and position, conditions on the stock market and other circumstances. Should the Board determine that this is not the case, it shall reduce the number of shares to be allotted to a lower number of shares deemed appropriate by the Board.

The participants shall not provide any payment for their rights under the program. At the time the shares are allotted, the participants shall receive compensation for cash dividends during the three-year performance period.

The Board is entitled to introduce an alternative incentive solution for employees in countries where participation in the Performance Share Program 2011 is not appropriate. Such alternative incentive solutions shall, as far as practically possible, correspond to the terms of the Performance Share Program 2011.

Assuming that the maximum number of shares is allotted under the Performance Share Program 2011 and a share price of SEK 250, a maximum of 266,000 class B shares will be required to fulfill the commitments under the program (including social security contributions), corresponding to approximately 0.28 percent of the total number of outstanding shares.

To secure delivery under the Performance Share Program 2011, the Board proposes under point 17 c), that not more than 266,000 class B shares be transferred to employees in the Elekta Group and, in addition, that a portion of the shares also be transferred on NASDAQ OMX Stockholm to cover social security contributions and other expenses.

Assuming that the maximum number of shares is allotted under the Performance Share Program 2011 and a share price of SEK 250, the cost is estimated at approximately SEK 66,500,000 including social security contributions and the financing cost for repurchased own shares.

Point 19 – Resolution on amendment of the articles of association

The Board proposes that the Meeting resolves upon the following amendment of the articles of association.

Proposed new wording of § 7: "For the purpose of examining the Company's annual report and financial statements and the administration of the Board of Directors and the President, an auditor shall be appointed. The appointment as auditor shall be valid up to the close of the Annual General Meeting held during the fourth financial year after the election of the auditor. "

The resolution of the Meeting in accordance with the Board's proposal pursuant to this point 19 must be supported by shareholders representing at least two-thirds of the votes cast and the shares represented at the Meeting.

Point 20 – Question regarding appointment of the Nomination Committee

The Nomination Committee proposes that the Meeting resolves that a Nomination Committee should be appointed through a procedure whereby the Chairman of the Board, before the end of the second quarter of the financial year, contacts three to five representatives for the, as per the last banking day in September, largest holders of voting rights of A and B shares. Those representatives shall together with the Chairman of the Board constitute the Nomination Committee and fulfil its obligations in accordance with the Swedish Code of Corporate Governance (*sw. Svensk kod för bolagsstyrning*). The entitlement shall be based on Euroclear Sweden AB's list of shareholders (by group of owners) on the last banking day in September, and on other reliable information provided to the Company on such date. The names of the members of the Nomination Committee shall be published as soon as they have been appointed, however, not later than six months before the next Annual General Meeting. The Nomination Committee shall appoint a Chairman of the Nomination Committee among its

members. The term of office for the Nomination Committee ends when a new Nomination Committee has been appointed. No remuneration shall be paid for the performance of the work in the Nomination Committee; however, the Company shall pay all such necessary costs which may arise in the performance of the assignment.

If any of the larger shareholders sell their shares in the Company before the Nomination Committee has fulfilled its assignment, the member that has been appointed by such a shareholder shall, if the Nomination Committee so decides, be replaced by a representative of the shareholder with the largest holding of voting rights after those who are already represented in the Nomination Committee. If a member of the Nomination Committee no longer represents the shareholder that appointed him/her, before the assignment of the Nomination Committee has been fulfilled, then he/she should be replaced, if the shareholder so wishes, by a new representative appointed by that shareholder. The Nomination Committee is entitled to, if deemed appropriate, to co-opt a member to the Committee who are appointed by a shareholder who after the constituting of the Committee, has come to be among the shareholders with the five largest shareholdings in the Company and that have not already appointed a member to the Committee. Such co-opted member does not participate in the Nomination Committee's decisions.
