

PRESS RELEASE

Stockholm, 10 November 2003

ELEKTA SIGNS PROVIDER CONTRACT WITH CATHOLIC HEALTH EAST

Elekta has been selected by Catholic Health East (CHE), a major health system in the U.S., located in 11 eastern states from Maine to Florida, to be the preferred provider of Elekta's entire line of radiation oncology and radiosurgery solutions for CHE's member hospital and clinic groups.

"With Elekta, our members can secure the most advanced technology to serve their local communities and ensure they are prepared to take advantage of the emerging demand for innovative, effective treatment techniques," said David Everett, Manager, Supply Chain Initiatives at CHE.

"With the Elekta agreement, not only do we have proven technology from a pioneer in the field, but our members can also access comprehensive support services such as facility planning, marketing and financing to ensure their success."

The contract includes Leksell Gamma Knife[®], Elekta Neuromag[™], Elekta Synergy[™] and all other Elekta oncology radiation therapy products.
