ELEKTA INVITES YOU TO AANS IN ORLANDO

Elekta has the pleasure to invite you to visit us at the American Association of Neurological Surgeons (AANS), in Orlando, Florida on Monday and Tuesday, 3-4 May 2004.

AANS holds a yearly conference and exhibition, which is the most important US event in the neurosurgical field. This 72nd annual meeting takes place on May 3-5, 2004 at the Orange County Convention Center in Orlando, Florida.

Elekta will exhibit its full range of neurosurgical products and systems including Leksell Gamma Knife[®], Leksell Stereotactic System[®] and Elekta Neuromag[™].

We will also for the first time display Elekta Synergy[™] S, the next generation radiation oncology equipment. Developed for stereotactic radiotherapy, Elekta Synergy[™] S provides fine resolution beam-shaping for challenging extracranial indications and is the ideal complement to Leksell Gamma Knife[®].

Representatives from our corporate management will be present in our booth #715 to answer your questions. There will also be live presentations of our systems and specialists at hand to give you detailed information about our exhibits.

If you plan to visit us, please contact:

Lars Jonsteg, VP Investor Relations North America
lars.jonsteg@elekta.com, tel. +1 770 670 2419 or mobile +46 708 78 37 35

For planning purposes, we would appreciate your response no later than Friday, April 30.

Looking forward to see you at AANS.

Best regards

Peter Ejemyr, Group VP Corporate Communications, Elekta AB
