Second quarter

Product launches and Costreduction Initiatives on track

The uncertain macroeconomic environment and supply chain challenges continued to impact our installations, costs and margins in the second quarter. At the same time, we saw revenue growth in Europe and the U.S., as well as in Service. Elekta successfully launched key products that will support profitable growth going forward. Our Costreduction Initiative also progressed well during the quarter.

Mixed market situation with key wins

The market and order situation continued to be challenging in the quarter with our order intake declining in EMEA and the Americas. We were selected to deliver 37 Versa HD linacs to Italy's national health service, which will be booked in the third and fourth quarters. In India, we continued to drive adoption with leading Karkinos Healthcare acquiring several Versa HD and Harmony Pro linacs to be strategically deployed across the country.

Key product launches and rollouts

During the quarter, we continued the roll out of our new Gamma Knife platform, Elekta Esprit, for which we now have both CE and FDA regulatory clearance. Elekta Unity received CE mark for its Comprehensive Motion Management (CMM) with True Tracking and automatic gating functionalities and the FDA application is submitted. These features represent the next phase of Elekta Unity's CMM vision and will drive efficiency and productivity, as well as create opportunities for condensed treatment courses. fewer side effects, and improved outcomes for cancer patients.

To strengthen our position as a customer lifetime companion we expanded our value-added services. By introducing Elekta Care 360, the global service portfolio has expanded with services such as dosimetry, consultancy and physics start-up aiming at enhancing customers' clinical operations.

The new launches and our work with price improvements will contribute positively to revenue and margin growth going forward.

Installations and supply chain

Elekta's revenue declined in the second quarter as installations continued to be negatively impacted by Covid restrictions in China, customer readiness and continued supply chain disturbances. We enjoyed growth in the U.S. and in Europe – but saw a decline in China impacted by the lock downs. Together with inflation, the low revenue and supply chain challenges also explain the lower margins.

Cost-reduction Initiative on track

During the quarter, we have successfully driven our Cost-reduction Initiative and started to see our expenses sequentially decline. We are on track with our plan and will deliver annual savings of around SEK 450 M.

Looking forward

We expect the uncertain macroeconomic environment and supply chain challenges to continue to impact installations, costs, and margins in the third quarter. However, we foresee that the supply chain situation will gradually improve in the fourth quarter.

Second quarter Order intake and order backlog

The global macroeconomic challenges continued to drive uncertainties resulting in cautiousness and soft order development in the second quarter. Total order intake declined by 6 percent based on constant exchange rates compared to last year's second quarter with double-digit order growth. Order intake was weaker in mature than emerging markets. The MR-Linac with its latest developments was rewarded in the market, resulting in increased order intake for Elekta Unity in the quarter.

Order backlog increased both in SEK and based on constant exchange rates, and amounted to SEK 42,817 M, compared to SEK 39,656 M on April 30, 2022. The positive translation effect due to the conversion to closing exchange rates amounted to SEK 3,079 M.

¹ Based on constant exchange rates.

North and South America (Americas)

In the Americas, order intake decreased by 13 percent during the second quarter based on constant exchange rates. The decline was mainly explained by the development in Canada and South America. Despite continued cautiousness in the U.S., order intake remained on the previous year's high level. Mexico showed good order growth and included the high-end radiotherapy part of a bundled deal.

Europe, Middle East and Africa (EMEA)

In EMEA, orders declined by 9 percent based on constant exchange rates. The strong order momentum from the large tender in Spain continued, but large radiotherapy markets, such as Denmark, the Netherlands and France, drove the decline in Europe. Although Africa showed negative development, the Middle East reported good growth.

Asia Pacific (APAC)

Orders in APAC increased by 2 percent based on constant exchange rates during the second quarter. The modest growth rate in APAC was mainly explained by weak development in large mature markets such as Japan, Australia and New Zealand. The Chinese market expanded during the quarter and order intake showed good growth. East Asia had a positive development, with Korea as the main driving country.

Second quarter Net sales

Elekta's revenue declined in the second quarter, as installations were impacted by the supply chain disturbances and Covid restrictions in China. The supply chain issues meant component shortages and extended lead times, as well as long shipping times delaying linac deliveries. Covid restrictions impacted both customers' readiness and planned installations. Based on constant exchange rates, net sales decreased by 5 percent, however in SEK, net sales increased by 10 percent to SEK 4,081 M (3,697).

¹ Based on constant exchange rates.

The development was negative in all geographic regions. In the Americas, the U.S. market was positive whereas fewer installations in Canada were the main driver for the region's negative development. Europe contributed with good growth in the quarter, although a strong decline in the Middle East and Africa more than offset this growth for EMEA. The negative development in APAC was impacted by lockdowns in China, and lower installation volumes in Japan and Australia. India continued to show good growth in the quarter.

Service grew with 7 percent based on constant exchange rates with continued good growth across all business lines. Solutions decreased by 13 percent based on constant exchange rates. At the end of the period, Elekta had an installed base of approximately 7,000 devices, of which about 5,100 units were linacs, MR-Linacs or Leksell Gamma Knife systems. 46 percent of the installed base of linacs was in emerging (underserved) markets with growth of more than 40 systems in the quarter.

Second quarter Earnings

Adjusted gross margin amounted to 37.3 percent (38.6) in the second quarter. The decrease compared to last year was impacted by lower sales volume of approximately 160 basis points as well as higher supply chain costs and inflation of approximately 250 basis points. These effects were partly offset by a favorable Solutions/Service mix of approximately 140 basis points and a positive contribution from foreign exchange rates of approximately 140 basis points.

Operating expenses increased by 3 percent during the second quarter based on constant exchange rates. The increase is explained by higher selling expenses, partly offset by decreased net R&D expenditure, while the administrative expenses were on the same level as the comparing guarter. The higher selling expenses reflect more in-person customer events and meetings including travel and exhibitions such as ASTRO and launch events in China. On a rolling twelve-month basis, gross R&D expenditure to net sales was 15 percent (12), relating to accelerated investments in innovations. Net R&D expenditure decreased versus last year as R&D projects proceeded and amortizations were lower. Amortization of intangible assets and depreciation of tangible fixed assets amounted to a total of SEK 266 M (246). Foreign exchange hedges had a negative impact on adjusted EBIT. Adjusted EBIT was SEK 316 M (533) representing a margin of 7.7 percent (14.4). EBIT, including items affecting comparability, amounted to SEK 199 M (533), which represented a margin of 4.9 percent (14.4). Items affecting comparability related mainly to personnel related costs and amounted in the second guarter to SEK 117 M, whereof SEK 45 M impacted gross margin.

Net financial items increased to SEK -40 M (-30). The key driver was higher interest expenses as a result of increased interest rates. Taxes amounted to SEK -38 M (-121), representing a tax rate of 23.7 percent (24.0). Net income amounted to SEK 122 M (382) and earnings per share amounted to SEK 0.32 (1.00) before and after dilution. Adjusted earnings per share amounted to SEK 0.55 (1.00) before and after dilution. Return on shareholders' equity amounted to 9 percent (14) and return on capital employed was 9 percent (12).

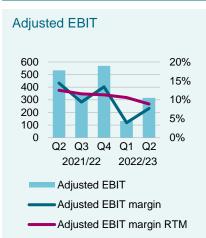

Cash flow

With SEK -417 M (-17) the second quarter cash flow was lower compared to last year mainly due to lower earnings. Investments in intangible assets amounted to SEK 327 M (289) and were mainly related to R&D investments in the Linac family and software. Investments in tangible assets decreased to SEK 35 M (52). Cash conversion in the second quarter was -12 percent and, based on rolling twelve months, cash conversion was 60 percent.

Second quarter Working capital

Net working capital as a percentage of net sales (rolling twelve months) was stable with -2 percent (-2) and followed a seasonal pattern. Accounts receivables and customer advances increased as a result of higher level of shipments in the quarter. The higher inventory level was a result of extended supply chain lead times and buildup for coming quarters. All individual working capital items were significantly impacted by currency movements, while the net effect on the total working capital from currencies was limited. For more information, see page 27.

Financial position

Cash and cash equivalents and short-term investments amounted to SEK 1,535 M (2,796). Interest-bearing liabilities excluding lease liabilities amounted to SEK 4,669 M (4,570). Net debt increased to SEK 3,134 M (1,773) as a result of accelerated investments in innovation. Net debt in relation to EBITDA was 1.38 (0.62). The average maturity of interest-bearing liabilities was 3.6 years.

Sustainability agenda

Elekta's sustainability agenda is set on improving access to healthcare globally while operating a responsible and sustainable business. The UN Sustainable Development Goals (SDGs) guide Elekta's approach to sustainability. The sustainability focus areas are: Access to Healthcare, Environmental Action, Business Ethics and People in Focus.

Business Ethics – Enhanced compliance initiatives

As part of Elekta's continuous work in Business Ethics, Elekta has had a dedicated focus on accelerating compliance and business ethics efforts, where the importance of business ethics and doing business with integrity were broadly emphasized in various communication channels. These initiatives were combined with the delivery of an upgraded online Compliance training, mandatory for all employees and covering the highest risk areas of the Elekta Code of Conduct. Elekta also released an updated

Second quarter

"Compliance Ambassador" program in order to increase support for local implementation of Elekta's compliance and business ethics strategy and relaunched a "speak up campaign" promoting the Elekta Integrity Line and other whistleblowing channels that encourage people to report any concerns relating to business ethics.

Risk and uncertainties

Elekta's presence in a large number of geographical markets exposes the Group to political and economic risks on a global scale and/or in individual countries. For more details, please see the Annual Report 2021/22, page 36.

Covid and the war in Ukraine impact Elekta's operations, supply and demand. These and similar events have impacted supply chains and may lead to an economic downturn, interest rate and inflation pressure, as well as foreign exchange rate fluctuations affecting Elekta's business and financial results. In fiscal year 2020/21, and the first nine-months of fiscal year 2021/22 (before the war in Ukraine), the Group's revenue in Russia, Belarus and Ukraine represented about 2 percent. Elekta has neither production nor Tier 1 suppliers in these three countries.

Elekta's Nomination Committee for AGM 2023

The Chairman of the Board has convened the Nomination Committee for the 2023 Annual General Meeting (AGM) consisting of representatives from the Fourth Swedish National Pension Fund, Nordea Funds, SEB Funds, Didner & Gerge Fonder in addition to the Chairman himself.

Elekta Care 360 launched

In October, Elekta announced Elekta Care 360, an expansion of Elekta Care's global portfolio of customer services aimed at enhancing customers' clinical operations. Elekta Care 360 increases Elekta's value-added services and strengthens the position as a lifetime companion. The solutions include, for example, dosimetry, consultancy, and physics start-up services.

CE mark for CMM with True Tracking and automatic gating

In October, Elekta announced that that its MR-Linac, Elekta Unity, has received CE mark for its Comprehensive Motion Management (CMM) with True Tracking and automatic gating functionalities. This functionality provides continuous tracking of the 3D position of any target in real time.

Elekta wins majority of Italian public tender

In October, Elekta announced that it had been selected to deliver 37 Versa HD linacs (60 percent of the tender) for a total value of approximately EUR 50 million to Italy's national health service. The order is expected to be booked during Elekta's third and fourth quarters of 2022/23 and the installations to be completed in 2023/24 and 2024/25.

Elekta Esprit receives CE mark and FDA clearance

In August, Elekta announced that the next-generation Leksell Gamma Knife® radiosurgery platform, Elekta Esprit, received CE mark and in October, it received FDA 510(k) clearance.

AGM 2022 approves dividend and new Board member

In August, Elekta's AGM resolved on a dividend corresponding to SEK 2.40 per share, to be paid in two installments. The Meeting also elected Kelly Londy as a new member of the Board and Laurent Leksell was reelected as Chairman of the Board.

Changes in Executive Management

During the quarter Elekta carried out changes in the Executive Management team in order to streamline and enhance the business. Business line Oncology Informatics Solutions (OIS) now reports to Chief Product Officer, Maurits Wolleswinkel; Neuro Solutions to President Brachy Solutions, John Lapré; and HR to General Counsel and EVP, Jonas Bolander. These new Heads will represent the business line/function in the Executive Management team going forward. Andrew Wilson, former President OIS, and Karin Svenske Nyberg, former EVP HR, have left Elekta to pursue new challenges.

First quarter¹

- New radiosurgery system Elekta Esprit launched
- Elekta and the Netherlands Cancer Institute to co-develop the next generation of radiotherapy solutions
- Elekta's Nomination Committee's proposal to the AGM
- Changes in Executive Management (Carlos Castilleja)

Cost-reduction Initiative

In the first quarter 2022/23, Elekta accelerated the Resilience and Excellence Program by launching a Cost-reduction Initiative to reduce structural costs and enhance productivity across the organization. The Cost-reduction Initiative will generate annual savings of approximately SEK 450 M. The measures include increasing productivity in operations and service as well as optimizing the innovation pipeline and leverage the global product organization. The Initiative will also drive efficiencies in selling and administration functions. In the first half of 2022/23, the Initiative has reduced spending by SEK 50 M. Implementation costs related to the Initiative are expected to amount to up to SEK 400 M and are reported as items affecting comparability. In the first half of 2022/23 the implementation costs were SEK 131 M, see page 28.

Employees

The average number of employees during the period was 4,664 (4,522). The average number of employees in the Parent Company was 58 (55).

Shares

Total number of registered shares on October 31, 2022, was 383,568,409 of which 14,980,769 were A-shares and 368,587,640 B-shares. On October 31, 2022 1,485,289 shares were treasury shares held by Elekta.

Box 7593 Stockholm

Introduction

We have reviewed the condensed interim report for Elekta AB as at October 31, 2022 and for the six months period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity.* A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.

Second quarter and first six months ACCOUNTING principles

This interim report is prepared, with regards to the Group, according to IAS 34 and the Swedish Annual Accounts Act and, with regards to the Parent Company, according to the Swedish Annual Accounts Act and RFR 2. The accounting principles applied are consistent with those presented in Note 1 of the Annual Report 2021/22.

New or revised standards and interpretations, not yet applied, are not considered to have a material impact on the Elekta Group's financial statements.

All figures are stated in SEK M and, accordingly, rounding differences can occur. Comparisons refer to the corresponding period for the prior year, unless otherwise stated.

Related party transactions

Related party transactions are described in note 35 in the Annual Report for 2021/22. No material changes have taken place in relations or transactions with related parties companies compared with the description in the Annual report 2021/22.

Exchange rates

For Group companies with a functional currency other than Swedish kronor, order intake and income statements are translated at average exchange rates for the reporting period, while order book and balance sheets are translated at closing exchange rates.

Segment reporting

Elekta applies geographical segmentation. Order intake, net sales and contribution margin for the respective regions are reported to Elekta's CFO and CEO (chief operating decision makers). The regions' expenses are directly attributable to the respective regions' reported figures including cost of products sold. Global costs for R&D, marketing, management of product supply centers and Parent Company are not allocated per region. Currency exposure is concentrated to product supply centers. The majority of exchange differences in operations are reported in global costs.

Elekta's operations are characterized by significant quarterly variations in volumes and product mix, which have a direct impact on net sales and profits. This is accentuated when the operation is split into segments, as is the impact of currency fluctuations between the years. Revenue from solutions are recognized at a point in time and revenue from services are recognized over time.

Second quarter and first six months Financial instruments

The table below shows the fair value of the Group's financial instruments, for which fair value is different than carrying value. The fair value of all other financial instruments is assumed to correspond to the carrying value.

| | Oct 31, 2 | 2022 | Oct 31, 2 | 2021 | Apr 30, 2022 | |
|---|--------------------|---------------|--------------------|---------------|--------------------|---------------|
| SEK M | Carrying amount | Fair value | Carrying amount | Fair value | Carrying amount | Fair value |
| Long-term interest-bearing liabilities | 4,138 | 4,177 | 3,050 | 3,208 | 4,099 | 4,251 |
| Short-term interest-bearing liabilities | 531 | 535 | 1,520 | 1,521 | 510 | 514 |

The Group's financial assets and financial liabilities, which have been measured at fair value, have been categorized in the fair value hierarchy. The different levels are defined as follows:

Level 1: Quoted prices on an active market for identical assets or liabilities

Level 2: Other observable data than quoted prices included in Level 1, either directly (that is, price

quotations) or indirectly (that is, obtained from price quotations)

Level 3: Data not based on observable market data

Second quarter and first six months Alternative performance measures

Alternative Performance Measures (APMs) are measures and key figures that Elekta's management and other stakeholders use when managing and analyzing Elekta's business performance. These measures are not substitutes, but rather supplements to financial reporting measures prepared in accordance with IFRS. Key figures and other APMs used by Elekta are defined on ir.elekta.com/investors/financials. Definitions and additional information on APMs can also be found on pages 155-157 in the Annual Report 2021/22.

Order and sales growth based on constant exchange rates

Elekta's order intake and sales are, to a large extent, reported in subsidiaries with other functional currencies than SEK, which is the group reporting currency. In order to present order and sales growth on a more comparable basis and to show the impact of currency fluctuations, order and sales growth based on constant exchange rates are presented. The schedules below present growth based on constant exchange rates reconciled to the total growth reported in accordance with IFRS.

Return on capital employed

Return on capital employed is a measure of the profitability after taking into account the amount of total capital used unrelated to type of financing. A higher return on capital employed indicates a more efficient use of capital. Capital employed represents the value of the balance sheet net assets that is the key driver of cash flow and capital required to run the business. It is also used in the calculation of return on capital employed.
