We continued to deliver on our strategy, ACCESS 2025, and drive significant improvements in the second quarter, the fourth consecutive quarter with revenue growth and expanded EBIT margin. Order growth came back, supported by large deals in both India and Ukraine, and cash flow improved.

Strong order and revenue growth

The positive order trend is a sign of our attractive product portfolio and the strength of our sales organization as well as a large unmet need for cancer treatments in many markets. Orders grew with 4 percent – all regions contributed except China. Orders excluding China grew with 17 percent. The weaker order development in China is linked to the ongoing anti-corruption campaign in the healthcare sector. We expect the Chinese order volumes still to be impacted in the third quarter, but to recover in the following quarters.

During the quarter, we signed a significant USD 40 M order in India with the leading healthcare group KIMS Hyderabad, comprising our full suite of hardware and software solutions. We won a public tender in Ukraine to deliver several linacs in enabling access to modern radiation therapy devices.

Revenue grew with 10 percent supported by strong Solution revenue of 15 percent. Whereas the Solution Service mix and inflation on materials and salaries impacted our gross margin negatively, we delivered strong EBIT margin expansion resulting in an adjusted EBIT margin of 11.5 percent. We see that our strategy, ACCESS 2025, and the Cost-reduction Initiative we started one and a half year ago are clearly paying off. We address the ongoing impact from inflation with further price increases and new product launches across our portfolio.

Continued strengthening of our market-leading product portfolio

We continue to invest in our extensive accelerated innovation program and have already introduced new products to the market. And more innovations within personalized precision, elevated productivity and integrated informatics are in the product pipeline for the coming years.

During ASTRO, our focus was on software, both Comprehensive Motion Management (CMM) for Unity as well as our new Elekta One software suite. CMM enables continuous calculating of the movement of the tumor anywhere in the body and adjust for it automatically. It is also a key trigger for new orders for Unity. Our Elekta One software suite also attracted a lot of interest at ASTRO; the suite is designed to increase productivity while managing clinicians' need for more complex workflows and personalized care.

In Brachytherapy we further strengthened our market-leading position with the acquisition of the Xoft business. Its system is using a miniaturized X-ray source to deliver a concentrated dose of radiation directly to a tumor site. The Xoft system has an installed base of more than 100 systems, and through Elekta's network, this technology will be able to reach more patients.

As part of Elekta's firm commitment to sustainability Elekta has signed the #FossilToClean letter to urge governments attending COP28 to phase out fossil fuels.

Looking forward

We have seen significant improvement during the last four quarters, both in revenue growth and margin expansion. We expect this to continue into the third quarter, although at a slower pace and with continued inflationary pressure. Our focus continues to be driving access to the best cancer care, profitable growth, and shareholder value.

Order intake and order backlog

In total, order intake in the second quarter amounted to SEK 4,989 M (4,598), an increase of 9 percent in SEK and 4 percent based on constant exchange rates. Order intake was impacted by the ongoing government initiated anti-corruption campaign in China. Excluding China, order growth was 17 percent based on constant exchange rates.

APAC excluding China had very strong double-digit growth rates driven by great demand in several markets, among others in India. The growth in EMEA was driven by double-digit growth in Europe, which was partly offset by low orders in the Middle East & Africa impacted by macroeconomics and the armed conflict in the region. The European development was partly driven by continued strong momentum in Italy and a large deal to modernize and expand the installed base of radiotherapy in Ukraine. The Americas had good growth.

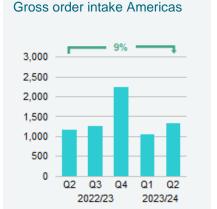

The book-to-bill ratio was 1.05 and the order backlog amounted to SEK 45,882 M, compared to SEK 43,332 M on April 30, 2023. The positive translation effect due to the conversion to closing exchange rates amounted to SEK 2,633 M.

Net sales

Based on constant exchange rates, Elekta's revenues showed good growth of 10 percent in the second quarter, with growth in both mature and emerging markets. In SEK, net sales increased by 16 percent to SEK 4,732 M (4,081). All regions contributed to the strong growth, with double-digit growth rates based on constant currencies in EMEA and APAC.

EMEA showed strong growth both in Europe and the Middle East & Africa. The installations in Europe were driven by the recent large tenders in southern Europe, as well as in the UK. Most markets in APAC showed good growth in installations, including Southeast Asia, China and India. In the Americas, revenue was stable.

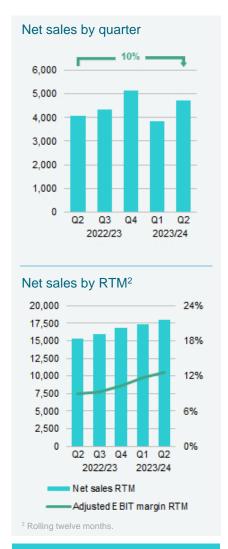

Service grew 4 percent based on constant exchange rates with growth in most business lines. Net sales from Solutions increased by 15 percent in constant exchange rates. At the end of the quarter, Elekta had an installed base of approximately 7,250 devices.

Earnings

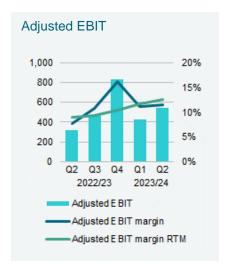

Adjusted gross margin was 36.0 percent (37.3) in the second quarter. The strong growth in Solutions and inflation on materials and salaries impacted the gross margin in the guarter. Foreign exchange rates contributed negatively. These impacts were partly offset by productivity measures following the Cost-reduction Inititative.

Expenses, excluding items affecting comparability, decreased by 1 percent during the second quarter based on constant exchange rates. The Costreduction Initiative contributed to the lower administrative expenses as well as to the R&D expenses, even if higher amortization from new commercialization impacted net R&D negatively. Selling expenses increased due to more customer events and visits. Amortization of intangible assets and depreciation of tangible fixed and right-of-use assets, amounted to a total of SEK 275 M (266).

Adjusted EBIT came in strong at SEK 542 M (316), representing a margin of 11.5 percent (7.7), an improvement of 370 basis points compared to last year. EBIT amounted to SEK 525 M (199), which represented a margin of 11.1 percent (4.9). Items affecting comparability in the second quarter consisted mainly of personnel-related costs and amounted to SEK 17 M (117), whereof SEK 8 M (45) impacted gross margin. Changes in foreign exchange rates had a positive impact on EBIT margin.

Net financial items increased to SEK -83 M (-40). Higher debt and increased interest rates were the main drivers. Taxes amounted to SEK -97 M (-38), representing a tax rate of 22 percent (24). Net income amounted to SEK 344 M (122) and earnings per share amounted to SEK 0.90 (0.32) before and after dilution. Adjusted earnings per share amounted to SEK 0.94 (0.55) before and after dilution.

Cash flow

With SEK 211 M (-417), the second quarter cash flow improved compared to last year with more than SEK 600 M. The increase was mainly a result of improved earnings and reduction of working capital. Investments in intangible assets amounted to SEK 367 M (327) and were mainly related to R&D investments in oncology solutions and software. Investments in tangible assets increased to SEK 45 M (35). Cash conversion in the second quarter was 78 percent (-12).

Working capital

Net working capital as a percentage of net sales (rolling twelve months) improved to -3 percent (-2). The improvements compared to last year were mainly driven by advances from customers. The inventory continued on a high level to secure future installations. Accrued income remained high as a larger share of installations were in Southern Europe with longer billing terms. All individual working capital items were impacted by currency movements, while the net effect on the total working capital was limited. For more information, see page 28.

Financial position

Cash and cash equivalents and short-term investments amounted to SEK 1,869 M (1,535). Interest-bearing liabilities, excluding lease liabilities, amounted to SEK 5,805 M (4,669). Net debt increased to SEK 3,936 M (3,134) as a result of an acquisition and continuous investments in innovation. Net debt in relation to EBITDA was 1.21 (1.38). The average maturity of interest-bearing liabilities was 3.8 years.

The exchange rate effect from the translation of cash and cash equivalents amounted to SEK 88 M (34). The translation difference in interest-bearing liabilities amounted to SEK 88 M (38).

Update on sustainability

More sustainable linacs in cancer treatment

The largest share of Elekta's emission arise from the supplier chain followed by the use of our Solutions. Elekta's current focus is on three main topics when driving towards more sustainable Solutions and Services. First, product energy consumption, as one of Elekta's targets for Scope 3 is to reduce the emission from our Solutions per radiotherapy treatment delivered. Already today, a recent UK study showed that an Elekta linac on average uses 50 percent less electrical power across all measured states compared to competitive products. But Elekta maintains its efforts on further increasing energy efficiency of a linac. Second, careful selection and use of raw materials and scarce natural resources. This includes conscientious use of high emission materials and minimizing the amount of material used. In the production of linacs, Elekta has established design targets for projects and products, including minimizing the weight of new designs; identifying redundant or overspecified parts; optimizing the amount of shielding materials; designing new products to facilitate remote diagnostics; and reducing spare parts consumption. Third, promoting more digitalization and cloud-based systems, enabling improved remote system diagnostics and service and requiring less hardware.

Electronic brachytherapy

Elekta has acquired the Xoft business (see Significant events below), which includes in its product portfolio a brachytherapy device with a miniaturized low energy X-ray source, eBx. Due to the limited shielding requirements and no need for a radioactive source this solution can expand access to radiotherapy for cancer patients as it can be transported easily to patients in areas where there are no radiotherapy bunkers or where radioactive isotopes are difficult to import. This expansion of the brachy portfolio supports Elekta's strategic pillar of driving adoption across the globe.

Signing #FossilToClean letter

Elekta has joined 125+ companies in signing the #FossilToClean letter to global policymakers attending #COP28 to urge governments to phase out #fossilfuels and phase in clean solutions.

Risk and uncertainties

Elekta's presence in many geographical markets exposes the Group to political and economic risks on a global scale and/or in individual countries. For more details, please see the Annual Report 2022/23 page 25, or visit risk management on www.elekta.com.

In June, one of Elekta's larger customers, GenesisCare, filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code. During the restructuring, GenesisCare intends to operate in the ordinary course without disruption to patient care. In November a court confirmed GenesisCare's plan of reorganization, which includes a significant deleveraging. GenesisCare continues to execute the plan to separate its U.S. business from its business in Australia, Spain and the UK, creating two platforms. Elekta is closely following the process in order to understand the implications on Elekta's business. In the U.S., a bidding process of GenesisCare's cancer centers is ongoing and without any significant cancellation so far. Therefore, Elekta has not made any adjustments in the order backlog regarding these centers. In the first half of 2023/24 Elekta has continued to receive payments from the customer. No specific additional provision has been recorded as the estimated exposure, as per the closing date is within the existing provisions.

Significant events

India's KIMS orders radiotherapy systems for USD 40 M

In October, Elekta received an order for approximately USD 40 million from one of India's largest corporate healthcare groups, Krishna Institute of Medical Sciences (KIMS) Hyderabad. The combination of solutions includes Elekta's full suite of hardware and software, such as Elekta Unity MR-Linacs; Esprit (Elekta's latest Leksell Gamma Knife) systems; Versa HD linear accelerators; Flexitron brachytherapy afterloaders; and Elekta One suite of oncology software solutions.

Elekta's Nomination Committee for AGM 2024

In October, the Chairman of the Board convened the Nomination Committee for the 2024 Annual General Meeting (AGM) consisting of representatives from the Fourth Swedish National Pension Fund, Nordea Funds, SEB Funds and Handelsbanken Funds in addition to the Chairman himself.

Elekta expands brachytherapy with acquisition of Xoft

In October, Elekta acquired the Xoft business from iCAD, Inc. By acquiring the Xoft Axxent Electronic Brachytherapy (eBx) System, together with the transfer of employees, Elekta, the world leader in brachytherapy solutions, will now be able to offer electronic brachytherapy technology and provide an expanded range of cancer treatment options.

Elekta continues to support Ukrainian cancer patients

In October, Elekta won a public tender to deliver several Harmony linear accelerators to help meet demand for cancer treatments with modern radiation therapy devices in Ukraine. The first linear accelerators are expected to begin treating cancer patients in 2024. The Harmony systems will be placed in half of Ukraine's provinces as well as at the National Cancer Institute in the capital, Kyiv.

AGM 2023 approves dividend and new Board members

In August, Elekta's AGM resolved on a dividend corresponding to SEK 2.40 per share, to be paid in two installments. The Meeting also elected Tomas Eliasson and Volker Wetekam as new members of the Board and Laurent Leksell was reelected as Chairman of the Board.

First quarter¹

- Acquisition of Thai distributor through a business combination
- GenesisCare filed voluntary petitions under Chapter 11
- New management structure
- Launch of the first phase of Elekta ONE
- Elekta signed first sustainability-linked revolving credit facility
- The Nomination Committee proposed Board of Directors to the 2023 Annual General Meeting

Cost-reduction Initiative

During 2022/23, Elekta implemented a Cost-reduction Initiative to reduce structural costs and enhance productivity across the organization. During 2022/23 annual savings of approximately SEK 450 M was achieved, at one-off implementation costs of SEK 312 M. During 2023/24, activities of the Cost-reduction Initiative will continue, although at a significantly lower level. In the first half of 2023/24 an annual spending of SEK 28 M was reduced, at an implementation cost of SEK 32 M. The implementation costs are reported as items affecting comparability, see page 29.

Employees

The average number of employees during the period was 4,541 (4,664). The average number of employees in the Parent Company was 55 (58).

Shares

Total number of registered shares on October 31, 2023, was 383,568,409, of which 14,980,769 were A-shares and 368,587,640 B-shares. On October 31, 2023, 1,485,289 shares were treasury shares held by Elekta.

Outlook

from 2022/23 to 2024/25

- Net sales CAGR of >7%
- EBIT margin expansion

Dividend policy

Review report

Elekta AB (publ), 556170-4015

Introduction

We have reviewed the condensed interim report for Elekta AB (publ) as at October 31, 2023 and for the six months period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.

Comment to the Parent company income statement

In the first six months 2023/24 financial net has decreased due to less group contributions and dividends from subsidiaries compared to previous year.

Accounting principles

This interim report is prepared, with regards to the Group, according to IAS 34 and the Swedish Annual Accounts Act and, with regards to the Parent Company, according to the Swedish Annual Accounts Act and RFR 2. The accounting principles applied are consistent with those presented in Note 1 of the Annual Report 2022/23.

New or revised standards and interpretations, not yet applied, are not considered to have a material impact on the Elekta Group's financial statements.

All figures are stated in SEK M and, accordingly, rounding differences can occur. Comparisons refer to the corresponding period for the prior year, unless otherwise stated.

Related party transactions

Related party transactions are described in note 35 in the Annual Report for 2022/23.

Elekta has entered into consultancy agreements with two of its board members, Caroline Leksell Cooke and Kelly Londy, and their respective companies. Elekta enters transactions with these entities in the ordinary course of business. The transactions are priced on an arm's length basis and are subject to terms and conditions that are standard in the industry.

Exchange rates

For Group companies with a functional currency other than Swedish kronor, order intake and income statements are translated at average exchange rates for the reporting period, while order book and balance sheets are translated at closing exchange rates.

¹ October 31, 2023, vs October 31, 2022.

Segment reporting

Elekta applies geographical segmentation. Order intake, net sales and contribution margin for the respective regions are reported to Elekta's CFO and CEO (chief operating decision makers). The regions' expenses are directly attributable to the respective regions' reported figures including cost of products sold. Global costs for R&D, marketing, management of product supply centers and Parent Company are not allocated per region. Currency exposure is concentrated to product supply centers. The majority of exchange differences in operations are reported in global costs.

Elekta's operations are characterized by significant quarterly variations in volumes and product mix, which have a direct impact on net sales and profits. This is accentuated when the operation is split into segments, as is the impact of currency fluctuations between the years. Revenue from Solutions is recognized at a point in time and revenue from Services are recognized over time.

Financial instruments

The table below shows the fair value of the Group's financial instruments, for which fair value is different than carrying value. The fair value of all other financial instruments is assumed to correspond to the carrying value.

| | Oct 31, | 2023 | Oct 31, | 2022 | Apr 30, 2023 | | |
|---|-----------------|---------------|-----------------|---------------|-----------------|---------------|--|
| SEK M | Carrying amount | Fair value | Carrying amount | Fair value | Carrying amount | Fair value | |
| Long-term interest-bearing liabilities | 5,796 | 6,014 | 4,138 | 4,177 | 5,706 | 5,959 | |
| Short-term interest-bearing liabilities | 9 | 9 | 531 | 535 | 14 | 15 | |

The Group's financial assets and financial liabilities, which have been measured at fair value, have been categorized in the fair value hierarchy. The different levels are defined as follows:

- Level 1: Quoted prices on an active market for identical assets or liabilities
- **Level 2:** Other observable data than quoted prices included in Level 1, either directly (that is, price quotations) or indirectly (that is, obtained from price quotations)
- Level 3: Data not based on observable market data

Remeasurement for hyperinflation

Elekta's operations in Turkey is accounted for according to IAS 29 Financial reporting in hyperinflationary economies. The index used by Elekta for the remeasurement of the financial statements is the consumer price index with base period January 2003. The impact on the consolidated statement of income from IAS 29 is illustrated below.

Alternative performance measures

Alternative Performance Measures (APMs) are measures and key figures that Elekta's management and other stake-holders use when managing and analyzing Elekta's business performance. These measures are not substitutes, but rather supplements to financial reporting measures prepared in accordance with IFRS. Key figures and other APMs used by Elekta are defined on ir.elekta.com/investors/financials. Definitions and additional information on APMs can also be found on pages 97-99 in the Annual Report 2022/23.

Order and sales growth based on constant exchange rates

Elekta's order intake and sales are, to a large extent, reported in subsidiaries with other functional currencies than SEK, which is the group reporting currency. In order to present order and sales growth on a more comparable basis and to show the impact of currency fluctuations, order and sales growth based on constant exchange rates are presented. The schedules below present growth based on constant exchange rates reconciled to the total growth reported in accordance with IFRS.

Return on capital employed

Return on capital employed is a measure of the profitability after taking into account the amount of total capital used unrelated to type of financing. A higher return on capital employed indicates a more efficient use of capital. Capital employed represents the value of the balance sheet net assets that is the key driver of cash flow and capital required to run the business. It is also used in the calculation of return on capital employed.
